

A Note From Your Hostess

In light of the world's current events, there has never been a better time for couples to escape to the sanctity of the Villa to relax, recharge and rekindle. Our intimate size ensures that we can attend to the smallest of details.

Guests that we have had the privilege of pampering in the past, will attest to the fact that their health and wellness have always been our top priority.

We have always taken an immense amount of pride in upholding the highest of standards in cleanliness together with exemplary service. That will never change.

Since opening 21+ years ago, it has been our daily protocol to sanitize every surface that has been commonly contacted, we have always gone "[above and beyond](#)" in this area. In fact our suites have always had disinfectant wipes for our guest's total peace of mind.

The Villa is an easily accessible drive for B.C. and Alberta residents that understandably wish to avoid crowded airports.

For guests that prefer not to order take-out or venture out to dine, we have a full size BBQ poolside together with the equipment and condiments needed to prepare a lovely meal for yourselves.

If after making your reservation, you feel the need to postpone your visit with us, we are waiving our 30 day cancellation notice and will provide you with a gift certificate for the FULL amount, together with a bottle of champagne waiting for you on arrival.

We continue to welcome guests that have not been abroad within the past two weeks and who are not symptomatic.

I encourage you to come isolate yourselves in our luxuriously private and pristinely maintained suites.
